

20 20
ALL-AMERICAN
 ★ BROWN SWISS ★
 NOMINATIONS

The 2020 All American nominations are in. Tabulation of the voting is much anticipated. With the lack of some shows and the addition of others, the playing field became much wider. There were 96 individuals selected for nomination from the 171 head entered for 2020. The 171 entered were 17 head more than in what we call a “normal” year. Cattle were entered from 17 states reaching from shore to shore.

Production found its way to the center of the showing, as well it should. Consider these production facts while eyeballing the pretty pictures.

There are 30 cows nominated from Jr 3YOs to Component Merit cows; 22 have over 1,000 fat and 15 have over 1,000 protein.

37 of the nominated cows have completed 305d records, averaging 24,597m 4.1% 1,028f 3.3% 830p. When converted, that equals 27,705

lbs. ECM. Of the cows, 14 have records over 30,000m.

42 heifers are nominated All American. 13 of the 32 dams with completed records have from 25,000m to 38,130m.

Strength of pedigree is just what you expect to find in this contest. Of the 96 individuals nominated, 52 have Excellent dams. Nineteen of the 54 cows nominated are third-generation Excellent. 13 of the heifers nominated are backed by 2 generations of Excellent dams.

As you can see in the chart, there is a wide variety of popular bulls being used. Having 22 bulls sire 2 or more daughters up for All American recognition shows there is no shortage of top available sires.

All in all, the Brown Swiss “Tanbark Trail” was a success. Thanks for your participation and good luck going forward!
