The BSCBA Embryo Program

The program offers breeders an opportunity to not have to register flushes for donor dams with resulting calves.

Requirements:

- Breeders must agree to genomic test all registered ET calves before the registration papers can be mailed out.
- Enrollee must understand that if embryos are sold, the flush will then be required to be registered and the embryos transferred to the new owner.
- All donor dams will continue to be required to be tested prior to the calves being registered.
- Breeder will agree to pay the additional fee for embryo resulting calves on top of the normal registration fees as part of the program for not registering flushes.

Fees

Per ET Registration

\$15 in addition to registration fees

Examples: National Under 6-month ET calf fee: $\$25 + \$15 = \$40$ new registration cost

BSA ET calf fee: $\$15 + \$15 = \$30$ new ET registration cost
